

**570 m ü. NN**

**Kupferstecher/DFS**

The chart displays the daily and cumulative number of cases (DFS) for the years 2022, 2023, 2024, and 2025. The left y-axis measures the number of cases (0 to 100,000), and the right y-axis measures the cumulative number of cases (0 to 500,000). The x-axis shows dates from 01.04.25 to 28.10.25, with weekly intervals. The legend indicates that bars represent daily cases (DFS) and lines represent cumulative cases (DFS kumul.). The 2023 data shows a massive spike in late July, reaching over 100,000 cases. The 2024 data shows a significant peak in late August, reaching over 20,000 cases. The 2025 data shows a peak in late May, reaching 25,000 cases. The 2022 data shows a steady increase, reaching over 10,000 cases by late August.
